

Skyways Aviation awarded ATR 42-500 mandate

Skyways Aviation are pleased to announce that they have been selected by Ernst and Young, acting as receivers of Macair Airlines of Australia, to be their exclusive agent for the re-marketing of one 1998-build ATR 42-500. The operator was placed into administration earlier this year and the aircraft is available for sale with immediate effect.

Skyways Aviation has been offering specialist consultancy and remarketing services to the regional airline industry for more than 12 years. A total of 400 sale/lease transactions have been concluded on behalf of over 150 clients worldwide. Skyways Aviation has extensive turboprop marketing experience and in particular has achieved much recent success in the ATR market.

We are proud to have been appointed exclusive marketing agent after an intensive evaluation process carried out by Ernst & Young, this being the second regional turboprop marketing mandate to be awarded to Skyways Aviation in the last month. More details on the aircraft can be obtained from Peter Greensmith, Vice President Sales on + 44 1753 832088.
